

KARARA BUGAK

KOREAN STYLE CRISPY SNACK

OnlyOne Fair Team 2 ('Nama Snack') global territory expansion

Moon Won-jin, Byun Bo-kyung, Seo Jai, Lee Min-suk, Lee Ye-ju, Jung Hyun-wook, Hong Si-eun

A large crowd of people, mostly women in traditional Indian attire (sarees and headscarves), are gathered and celebrating. They are throwing a large amount of colorful confetti (pink, yellow, and orange) into the air, creating a festive atmosphere. The background is dark, and the lighting is warm, highlighting the people and the falling confetti.

Land of Opportunity

INDIA

massive opportunity with a fast-growing consumer market
driven by a middle class with increasing purchasing power

1.47B population

**Global
NO.1**

Process food
market size

**160
Trillion**

At a glance

Slightly slower market penetration compared to other countries

Big K-Wave

This might be our **last chance**

Root Cause of underperformance in India

Absence of K-Product
purchasing channels

Failure to build
a local pipeline

Now we must enter MT with **localized** products that local Indian **distributors** proactively seek out first

Scaling up existing products in local markets

[Our Existing Success Stories]

To Be

Initial market entry based on products familiar to the local market

A new version of a familiar taste

Stronger, spicier localized Coca-Cola in India

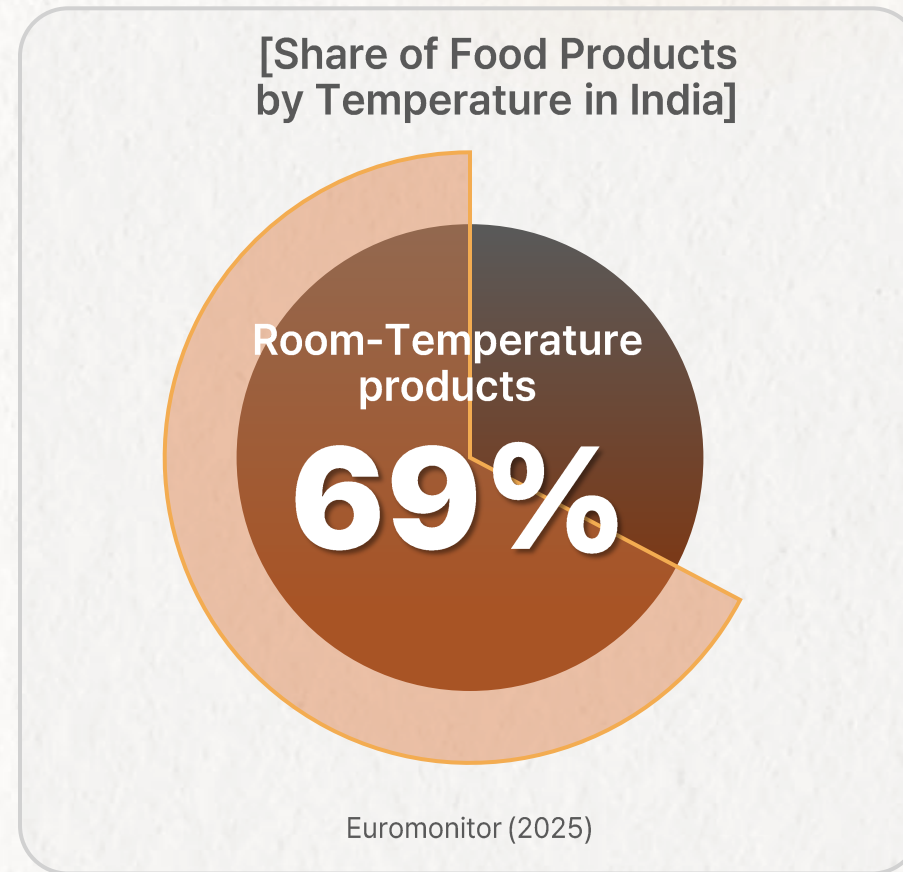

Achieved No. 1 market share at 42%

Launched a product similar to 'Namkeen', a traditional Indian snack

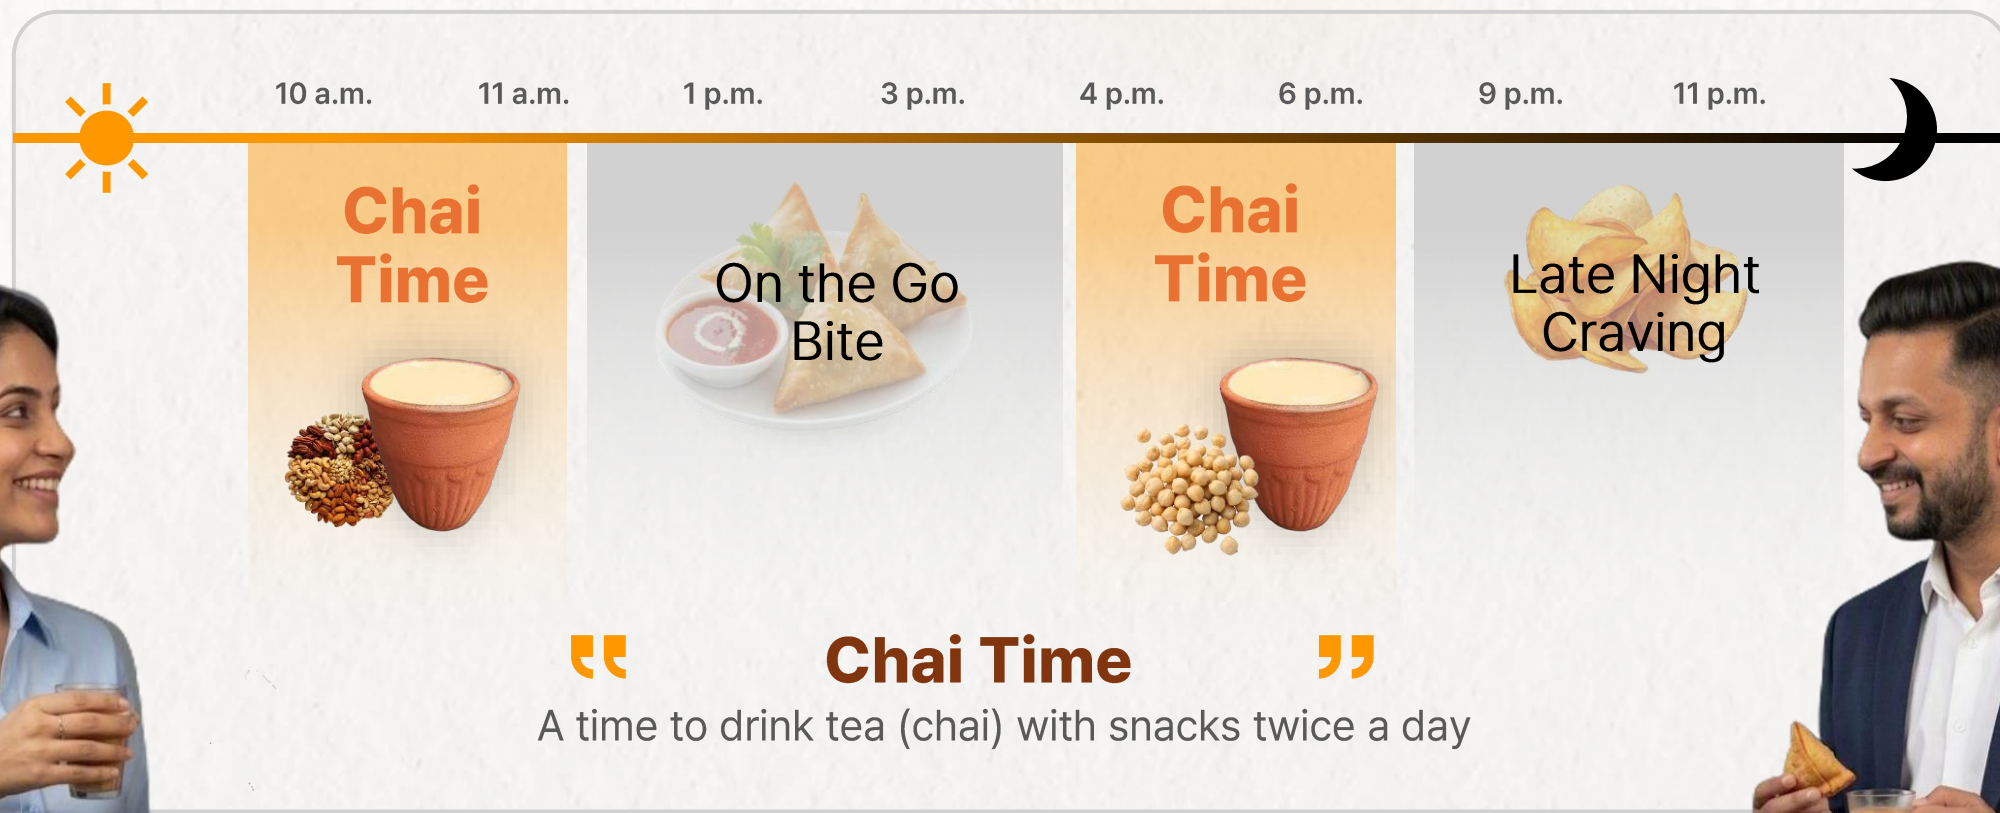

Annual sales of 1.8 Trillion KRW

**Due to India's poor cold chain,
room-temperature products are primarily consumed**

**A pioneer for carrier expansion in the Indian market;
We will tap into the Indian market with snacks**

For Indians,
Snacking is an everyday culture

Common characteristics of popular Indian snacks

Vegetable Ingredients & Spices

Savory Snack

Healthy Snack

Conventional Indian snacks are
deep-fried in oil to achieve crunchiness

라탈루 칩
Ratalu chip

차나 달

crunchy

“In India, Crunchy Rules”

[Mintel 2026 report]

Fried bean starch and wheat flour dough **make digestion difficult**

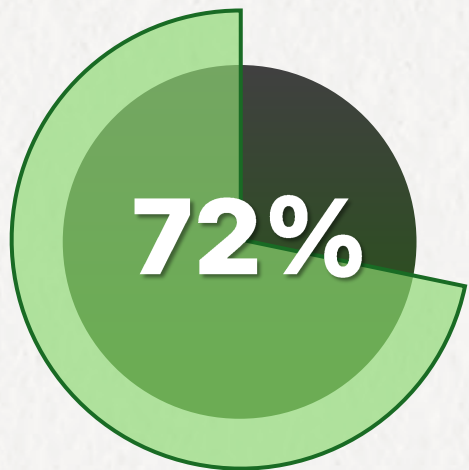

Indians who answered that deep-fried snacks are the cause of their digestive issues

Abbott Gut Health Survey(2022) / N=4000

68%

While they consider healthy alternatives like Makhana
healthy snacks are tasteless.

[Indians who consider 'Healthy'
factors when choosing snacks]

Mintel (2022)

A healthy snack made of puffed lotus seeds

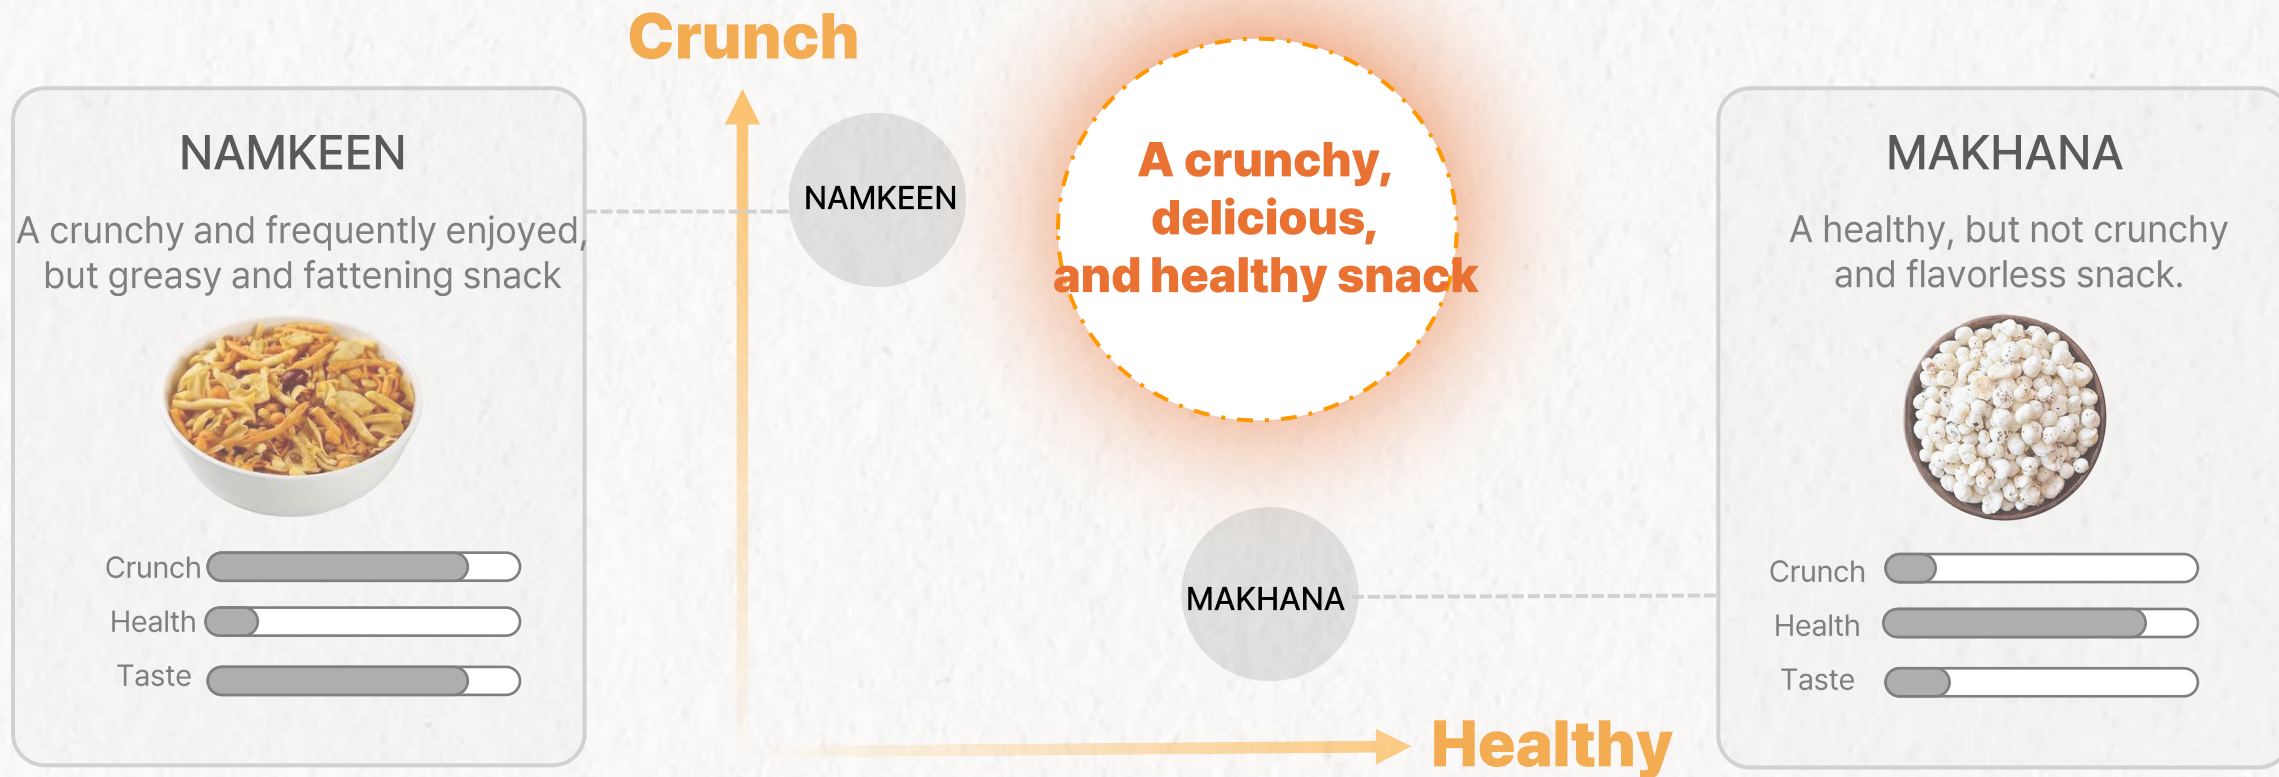

Makhana

Makhana is low in calories,
but it's not crunchy and is
completely flavorless
Female, 24, Bengaluru, India

Can't we have the perfect trio of **crunch, health, and taste** all at once?

Veggie Crunch

Bugak

A traditional Korean snack made by coating seaweed or vegetables with glutinous rice paste, drying them thoroughly, and then deep-frying them

형태

맛

Unlike conventional Indian snacks fried in flour
Bugak ensures healthiness.

Frying method using

We will start by entering India's Silicon Valley,

Bengaluru quick commerce

1)Key Numbers

629개

*number of MFC
(dark store)

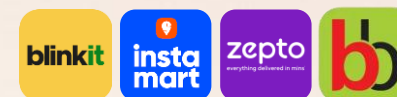

23.5M

*estimated gig workers in
India (by 2030)

34.6%

*Quick commerce usage rate in
Bengaluru / Exceptionally high compared
to Delhi and Mumbai metropolitan areas

*Bengaluru TOP4 quick commerce platform

2)Key Words

Wellness

High income

We will expand the

K-snack carrier portfolio through our entry into the Indian market

Phase 1 Entry via Quick commerce in Bengaluru

- Secure initial category awareness
- Enter Top 5 in the healthy snack category, finalize data for 1-2 preferred seasonings

Phase 2 Expansion to local chains in Tier 2&3 via distributors

- Validate regional scalability
- Prioritize listing in major supermarket chains (e.g., More Supermarket, Reliance Fresh, Star Bazaar, Spencer's Retail)

Phase 3 Product expansion as a K-snack carrier

- Position as a flagship K-Snack product and pave the way for other CJ CheilJedang snack products to enter the Indian market.

Phase 3

Phase 2

Phase 1

Only One value

First

- First mover in the Indian market carrier (portfolio).
- Introduction of India's first localized, sprinkle-on K-Bugak

Best

- Healthy crunch perfected with unique ingredients and authentic traditional methods (Guilt-Free)

Differentiation

- A differentiated approach of extracting K-Seasoning from K-Food.
- A differentiated product positioning strategy that maximizes cross-category synergy between K-Seasoning and snacks.

Onlyone Moment: CJ New Wellness Value from the Consumer's Perspective

A snack experience that redefines healthy enjoyment by adding K-Seasoning to Indian ingredients.

Taste

- Uses ingredients familiar to locals
- A new Masala made with K-Spice
- Glutinous rice paste method preserves natural flavor while adding crunch

Health

- Lower in oil and higher in protein compared to existing products
- Rich in vitamins and dietary fiber from vegetable ingredients

Convenience

- Zipper pouch design for easy storage and maintaining crispiness
- Easy Shaking: Packaging designed to effortlessly mix various K-Seasonings

Sustainability

- Secures regional scalability through ingredient diversification
- Secures portfolio scalability as an ambient (room-temperature) carrier

EOD
